

Team United at Delta Cup 2013

25-05-2013 Schriesheim, Germany - *A few months ago we decided to participate in the full-contact tournament. Some practitioners signed up directly and in the end three students really participated. In the past months, Darryl Ketelaar, Dennis Janssen and Jeffrey van Kooi prepared themselves well to except the challenge.*

The main goal, to test their Ving Tsun and to gain first-hand combat experience, was a success. All our participants have left the fights with few injuries. The fighters stated it was a great experience. It is clear that there is a positive effect from that on trainings in the school. At last, joining was good for getting more insight into their own abilities and to form a more realistic view of a real fight. Thanks to the organization of Deltacup o.l.v. Lars Ender, all staff and fighters.
